

DFARS Compliance Statement

SV Microwave supports customers throughout the U.S. defense industrial base by complying with applicable contractual requirements contained within the Defense Federal Acquisition Regulation Supplement (DFARS).

As a supplier to the aerospace and defense industry, we recognize the importance of protecting sensitive information, maintaining secure business practices, and supporting the delivery of high-reliability products for defense applications. Our compliance program is designed to support applicable DFARS requirements that are incorporated into customer contracts or purchase orders.

SV Microwave maintains policies, procedures, and internal controls that support compliance with applicable contractual DFARS requirements, including areas such as:

- Information security
- Protection of Controlled Unclassified Information (CUI)
- Export control compliance
- Supply chain integrity
- Product quality and traceability
- Counterfeit parts prevention
- Risk management
- Business continuity
- Incident reporting, where contractually required

Applicable requirements vary depending on customer contracts and purchase order flow-downs.

Where contractually required, SV Microwave supports cybersecurity requirements applicable to the protection of Covered Defense Information (CDI) and Controlled Unclassified Information (CUI). Our information security program is designed to support applicable contractual cybersecurity requirements and industry best practices.

SV Microwave reviews customer purchase orders and contracts to identify applicable FAR and DFARS flow-down requirements and implements processes to support compliance with those contractual obligations.

SV Microwave maintains quality management and supplier oversight processes supporting:

- Product conformity
- Configuration management
- Counterfeit parts prevention
- Supplier qualification and monitoring
- Product traceability
- Record retention
- Corrective and preventive actions

DFARS requirements vary based on:

- Prime contract requirements
- Customer purchase orders
- Product type
- Program classification
- Information exchanged during contract performance

Compliance with specific DFARS clauses is evaluated on a contract-by-contract basis.

Upon request, SV Microwave may provide information supporting customer compliance activities, including:

- Cybersecurity questionnaires
- Quality certifications
- Export compliance information
- Product traceability documentation
- Counterfeit parts prevention information
- Supplier compliance documentation

Availability of documentation may vary depending on contractual obligations and applicable confidentiality requirements.

Disclaimer

This statement is provided for general informational purposes only and does not constitute a certification of compliance with all DFARS clauses. DFARS requirements are determined by the specific contract, purchase order, applicable flow-down clauses, and customer requirements. SV Microwave evaluates and implements applicable contractual requirements as required by each customer agreement.
