

Export Administration Regulations (EAR) Statement

SV Microwave is committed to complying with all applicable United States export control laws and regulations, including the Export Administration Regulations (EAR) administered by the U.S. Department of Commerce, Bureau of Industry and Security (BIS).

Our products support commercial, aerospace, defense, space, medical, industrial, and test and measurement applications. Depending on their technical characteristics, destination, end use, and end user, products and related technical information may be subject to the EAR. SV Microwave maintains an export compliance program designed to support compliance with applicable export control requirements and to help ensure products and technical data are transferred responsibly.

Products manufactured by SV Microwave may be classified under the EAR as:

- Export Control Classification Number (ECCN)
- EAR99
- Other applicable U.S. export control classifications

Export classifications vary by product and configuration. Where available, export classification information may be provided upon request.

SV Microwave supports compliance with applicable export control regulations through processes that include:

- Export classification of products and technical data
- Screening of customers and transactions against applicable U.S. government restricted party lists
- Evaluation of end-use and end-user information, when required
- Controls governing access to export-controlled technical information
- Employee export compliance awareness and training

Engineering drawings, specifications, CAD models, test reports, software, and other technical information may be subject to U.S. export control regulations. The release or transfer of controlled technical information may require authorization under applicable export regulations.

Customers are responsible for:

- Complying with all applicable U.S. export control laws and regulations
- Determining whether export, re-export, or in-country transfer authorizations are required
- Obtaining any required governmental licenses or approvals
- Providing complete and accurate end-use, end-user, and destination information when requested
- Ensuring products are not transferred to prohibited destinations, prohibited end users, or prohibited end uses

Customers requiring export classification information may request:

- Export Control Classification Number (ECCN), where applicable
- EAR99 confirmation, where applicable
- Export compliance documentation supporting customer import or export activities

Please include the applicable SV Microwave part number(s) when submitting your request.

Disclaimer

This information is provided for general informational purposes only and does not constitute legal advice or an export authorization. Export classifications and licensing requirements are subject to change and may vary depending on product configuration, technical characteristics, destination, end use, end user, and applicable regulations. Customers are responsible for complying with all applicable export control laws and regulations.
