

VITA 67

High Density & High Performance
RF Addition to the **OpenVPX™** Platform

Features

- The foundational coaxial interconnect for RF on the VPX platforms
- Cable assembly plug-in modules mate to backplane adapters
- Designed for side-by-side implementation with VITA 46 hardware
- Floating SMPM coaxial pins ensure excellent RF performance in any mating condition
- Available in half-width (4 port) and full-width (8 port) form factors

Applications

- Robust and rugged high speed cabled solution
- High-reliability, high-density for aerospace & defense applications
- SIGINT, EWR, ground base station & communication systems, avionics, radar systems
- Air Transport Racks (ATRs) without Rear Transition Modules (RTMs) or limited speed through RTM

Benefits

- MIL-STD 810 for shock and vibration
- Minimal footprint of I/O slot
- Significant reduction in Mean-Time-To-Repair (MTTR) since rear panel interface enables quick disconnect
- Utilizes existing and proven SMPM interfaces
- Unique SV connector retention mechanism offers significant ease of assembly/disassembly

SMPM VITA 67.2 Backplane Module

SMPM male on backside of board
Part Number: SF1132-6036

SMPM VITA 67.2 Plug-in Module

Configurable to any .085 or smaller cable type
Part Number: SF9321-60013

Based on Industry Standard SMPM Interfaces

- Proven performance in Military and Commercial Applications
- Ideal for High Frequency and High Density Applications
- Lightweight and versatile, can be cabled to most Ø.085 and smaller diameter coaxial cable types

Example: VITA 67.2 (6U) Configuration with Digital Connector and Guide Pins

Specifications

Electrical

Return Loss	-14 dB Max
Insertion Loss	0.12 * √f (GHz), DC to 26.5 GHz
Isolation	> 100 dB, DC to 26.5 GHz

Mechanical

Axial Travel	.079" Min
Radial Float	±.010" Min
Engage Force	2.5 lbs (typical per contact)

Standard Part Numbers
